

COLOSSAL

MÁLAGA

2026 DOSSIER

EUROPE'S BIGGEST VENUE FOR
FESTIVALS AND EVENTS

WHAT IS COLOSSAL MÁLAGA?

Colossal is not just a venue, it is a strategic platform for brand projection on a monumental scale. Located in Mollina, Malaga, and with capacity for more than 150,000 people. It stands as the largest festival and event space in Europe. Its size and versatility make it a unique setting for generating high-impact connections between brands, audiences, and memorable experiences.

Beyond hosting large-scale music festivals, fairs, sporting events, and cultural exhibitions, Colossal opens the door to creating valuable partnerships with sponsors who wish to amplify their presence and differentiate themselves in a context of maximum visibility. Every square meter is a branding opportunity, every event a platform for storytelling and direct engagement with massive and diverse audiences.

Its cutting-edge design, flexible infrastructure, and commitment to technological innovation and sustainability make Colossal a global benchmark. Strategically located in the heart of Andalusia, just a stone's throw from the Costa del Sol, it combines international accessibility with the magnetism of a growing cultural and tourist destination.

Colossal knows no boundaries: it offers scale, vision, and an unparalleled proposition for brands seeking more than just visibility—they seek to be protagonists of limitless experiences.

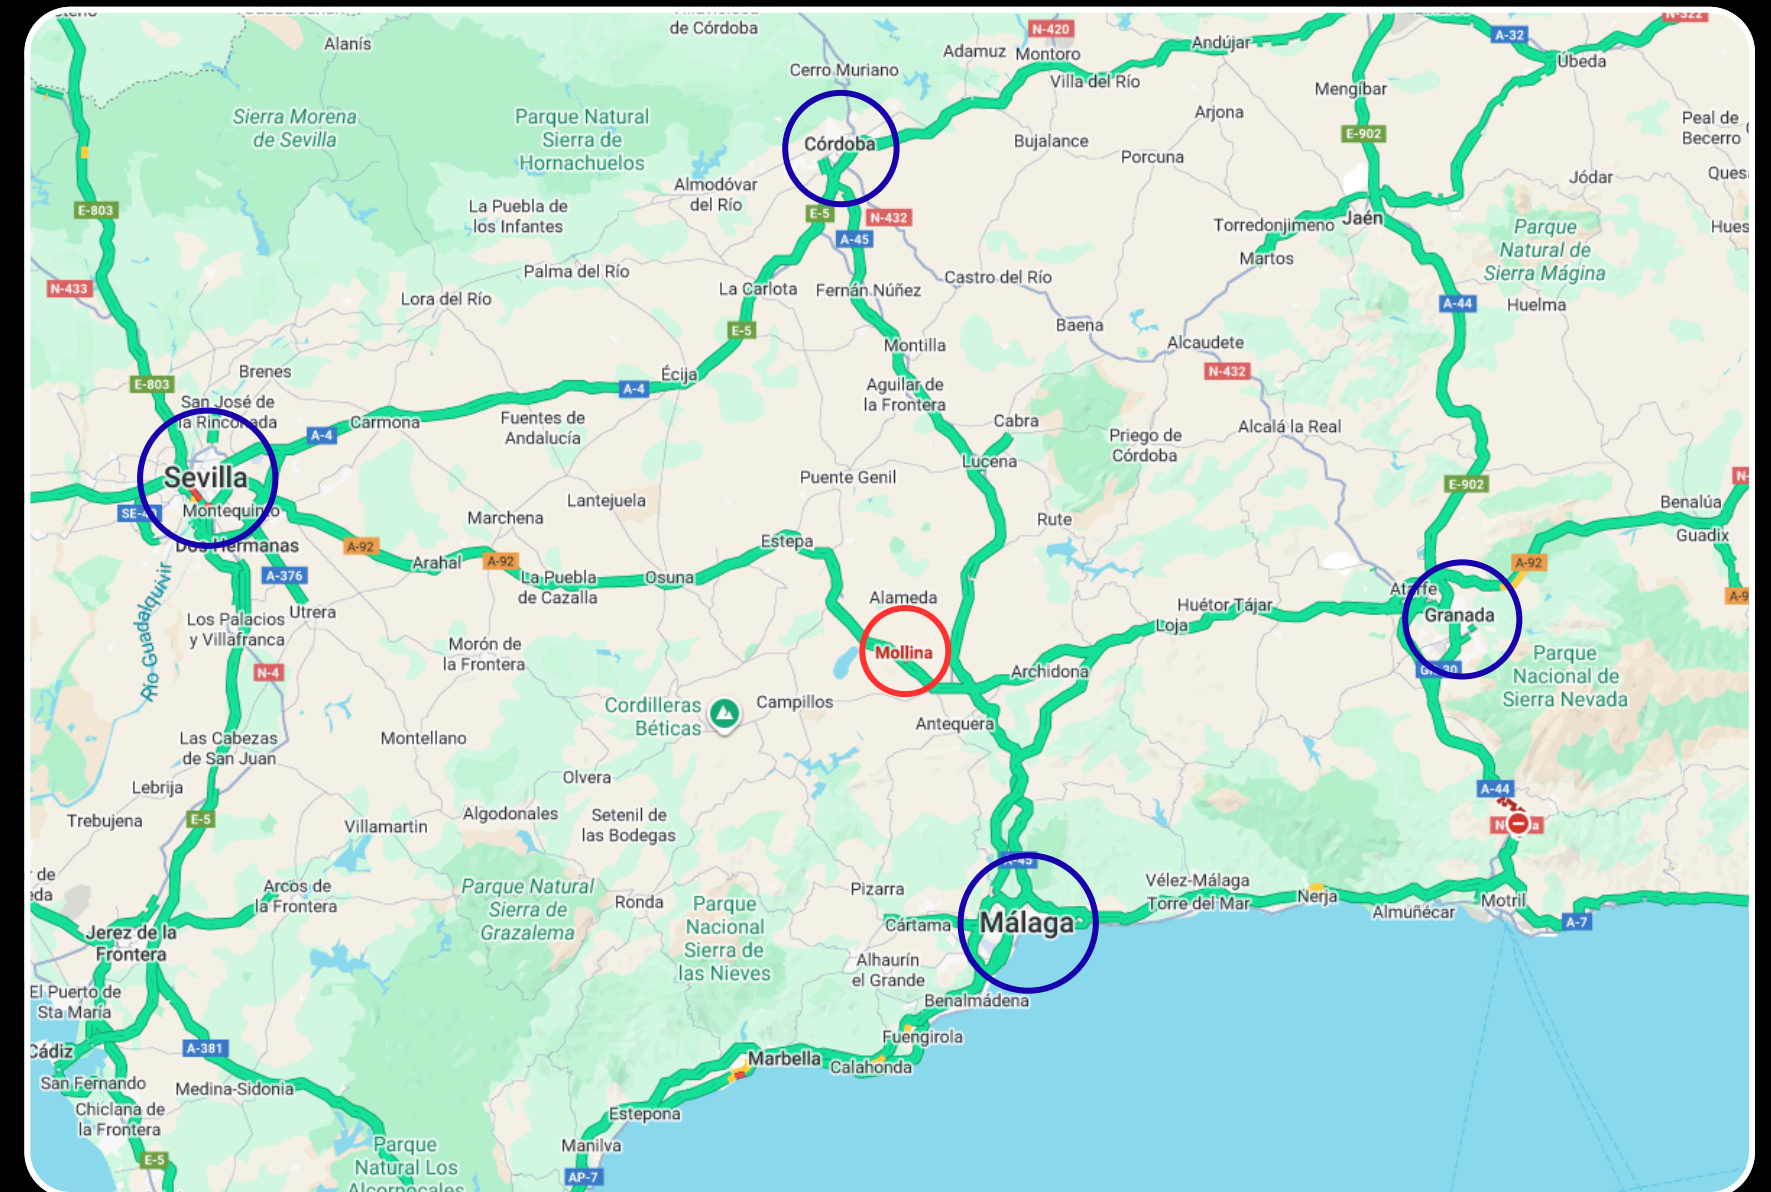

THE LOCATION

Mollina is a small municipality in the province of Malaga, located in the heart of Andalusia and just a few minutes from the historic city of Antequera. Its geographical location is strategic: it lies at the center of the axis linking Malaga, Seville, Cordoba, and Granada, four of the most important cities in southern Spain in terms of both culture and infrastructure.

This proximity makes Mollina a prime destination for domestic and international visitors, who can quickly reach it from different parts of the peninsula or abroad.

Located in the Nororma region, the municipality enjoys excellent connections to major transport routes, ensuring optimal accessibility for large events. The location combines the best of both worlds: on the one hand, proximity to major urban centers with their wide range of services, accommodation, and transportation. On the other hand, an exclusive and open natural environment, capable of hosting large-scale projects without the limitations of urban spaces.

Thanks to these characteristics, Mollina not only stands out for its Andalusian charm and natural surroundings, but also for offering a fast and efficient access infrastructure, which is essential for hosting large-scale festivals and events.

TRANSPORT AND ACCESSIBILITY

Colossal has up to five main entrances, two in the south, two in the west, and one in the east, which facilitates traffic management, security, and the orderly flow of tens of thousands of attendees simultaneously. Below we will list the different ways to get to the venue.

Road: The site has two direct access points from the A-92 motorway, one of Andalusia's main arteries, via exits 138 and 142, located just 1.5 kilometers apart. From exit 138, the site can be reached via the MA-711 provincial road, which provides quick and easy access to the complex.

Train: Molina train station is just a 5-minute drive away. Besides, Antequera station, an important high-speed rail hub (AVE) with direct connections to Malaga, Madrid, Seville, and other capitals, is 15 minutes away.

Buses: Several bus lines connect Molina with nearby towns and major cities in Andalusia, expanding public transportation options to the venue. In addition, the venue has space to set up shuttle buses.

Airplane: Malaga–Costa del Sol Airport, one of Spain's busiest airports with a wide range of international flights, is less than 50 minutes away by car. This makes Molina an accessible destination from any European city in just a few hours.

DIRECTIONS

Thanks to its strategic location in the heart of Andalusia, Colossal is easily accessible from anywhere in the region and the country. Direct road, rail, and air connections ensure that local residents and national and international visitors alike can reach the venue quickly and comfortably.

From Malaga: 50 minutes by car on the A-45 or about 30–40 minutes by train to Molina or Antequera station, plus a short transfer. From Malaga airport, the journey by car is also less than an hour.

From Seville, Cordoba, or Granada: 1 hour 30 minutes from Seville and 1 hour 15 minutes from Cordoba, 1h 10 minutes from Granada by road. By AVE train to Antequera, the journey is even faster and allows you to reach Molina in just 20 additional minutes by road.

From Madrid: 5 hours by car or 2 hours 30 minutes by AVE high-speed train to Antequera, followed by a 20-minute transfer. There is also the option of flying to Málaga and continuing by car to Molina in less than an hour.

From other Spanish or European cities: The most direct option is to fly to Malaga airport, which has multiple domestic and international connections, and complete the journey by car or bus in less than an hour.

In short, Molina offers the best of both worlds: the spaciousness and exclusivity of a natural setting, with excellent accessibility.

DIMENSIONS AND CAPACITY

Colossal has been conceived on a monumental scale, with the ambition of becoming the largest event space in Europe. Its dimensions offer unprecedented versatility. The spaciousness of the venue, together with its modular design and independent access points, guarantees efficient crowd management, allowing several formats to be held simultaneously and adapting to the needs of each organizer and sponsor.

A plot with

+1.800.000 square meters

Ability to

+150.000 assistants

A parking lot for

+50.000 vehicles

A camping area with

+25.000 plots

A glamping area with

+20.000 camping tents/cabins

THE PLACE

The venue has been planned in three construction phases, the first of which, called Phase 0, is nearing completion. This initial phase already includes everything necessary to host an event or festival in full swing, guaranteeing operational readiness and basic services from the outset. Available resources and facilities include:

ELECTRICITY

Electrical panels, three-phase lines, single-phase points, generator set options

CONNECTION

Fiber optic installation throughout the premises with professional Wi-Fi access

WATER

Water intake points, connection to municipal network, internal distribution network

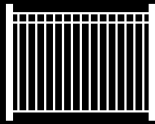

SANITATION

Drainage network in place, pipes in necessary areas, possibility of connection to sewer system

ACCESSES

Up to 5 entrances to the premises, wide exit and entrance roads, access for heavy goods vehicles, loading and unloading areas

PERIMETER FENCE

Fencing that ensures proper access control

Below are several floor plans that provide a detailed view of the space, its stages of development, and the many possibilities it offers for organizing events and festivals.

WHY COLOSSAL?

A large-scale event needs a venue that matches its magnitude, and Colossal was created precisely for that purpose. As the largest event venue in Europe, it has everything it takes to be the ideal place to bring projects of any scale to life.

Unprecedented scale: With capacity for more than 150,000 people, Colossal is the only venue in Europe capable of comfortably hosting macro-events, international festivals, or unique shows, guaranteeing spaciousness, safety, and an unforgettable experience for the audience.

Absolute flexibility: Unlike stadiums or other traditional venues, Colossal offers total availability throughout the year, with no limitations due to sports schedules or other fixed activities. This allows promoters to plan freely and optimize logistics according to their needs.

Total versatility: Designed as a blank canvas, Colossal adapts to any format: multiple stages, VIP areas, brand activations, dining areas, technical areas for audiovisual production, and everything else needed to create a unique and personalized event.

Advanced infrastructure: With more than 160,000 square meters of production space, the venue is equipped for large-scale productions, integrating state-of-the-art sound, lighting, and streaming technology. Both in-person attendees and digital audiences enjoy an optimal and memorable experience.

Strategic location: In the heart of Andalusia, less than an hour from Malaga International Airport and with excellent AVE high-speed rail and motorway connections, Colossal guarantees accessibility for both national and international audiences.

Sustainability and accessibility: Designed according to responsible criteria, the venue seeks to minimize environmental impact and offer a fully accessible space for all types of audiences.

WHY COLOSSAL?

Exclusivity and global reach: Colossal does not just host an event, it elevates it to iconic status. Its monumental scale and unique character in Europe make it an unrivalled setting that multiplies the visibility, media impact, and international reach of any festival or show.

Choosing Colossal is taking a historic step: placing your event in the largest venue in Europe and marking a turning point in the way live shows are experienced. Here, there are no limits, only possibilities to innovate, surprise, and make history.

EVENTS

This space is being launched as the future benchmark in Europe for hosting events of all kinds. From large - scale concerts and music festivals with capacity for tens of thousands of people, to major sporting competitions – whether outdoor disciplines or adapted formats – as well as international fairs, business conferences, cultural exhibitions, family shows, and immersive experiences that combine art, technology, and entertainment.

Colossal is designed to adapt to the needs of each project, offering modular infrastructures, accessibility, and state-of-the-art technical resources. Its versatility makes it an ideal meeting point for brands seeking to associate themselves with innovation, mass reach, and the creation of unique experiences.

BRAND ACTIVATIONS

One of the main reasons for choosing Colossal as the venue for a major event is the enormous versatility it offers for brand activations. Our venue not only provides space, but also a comprehensive setting for building advertising and sponsorship experiences that strengthen the connection between brands, the event, and the audience.

Thanks to its monumental scale and flexible design, Colossal allows each festival or show to be configured as a tailor-made project. From the most visible spots to the most experiential spaces, every corner of the venue can be transformed into an impactful platform for sponsors, generating a network of opportunities that maximizes investment and reinforces brand image in a unique environment.

- Stages
- Screens
- Bars
- Food area
- Shaded areas + Chill Out
- VIP areas
- Bleachers
- Parking
- Camping + Glamping
- Shuttle buses
- Outdoor + Indoor fencing
- Entrance to the venue
